- Review of your performance in our close-to-real mock exam

WHAT OUR STUDENTS SAY

“

I will make sure that my team goes on your courses for all the other exams they need to take. I think it worth every penny. We are all time constrained in some way and I think this was a great way to focus on the most important aspects of the extensive syllabus.

Terence Leeworthy

“

The lecturer made the course very easy to listen through a long topic, also very good at highlighting how to get through the exam and relevant points to study. This was important given the broad content covered. Overall, it would have been extremely difficult to pass if I had not been on the course.

Nicholas Angove - Deutsche Bank

“

I just wanted to record my thanks for your 2 e-learning courses (Papers 1 & 6) that I have subscribed to over the last 2 weeks. It is so much easier to say thank you when you know it has all worked. All in all, 2 good courses and job done. Thank you again.

eLearner Passed Papers 1 & 6

“

Your class helped me a lot. Specially the tricks and explanations you gave during this course. And you made it a real pleasure to run through these quite dry and not always very interesting topics.

D. Wanger

“

The course was very helpful and I think Kaplan was the major contributor to me passing the exam as I was able to focus my study.

Stephen Ellis
